

## BUSHING QUESTIONS? PCORE HAS ANSWERS.

**See why major electrical utilities and OEMs rely on PCORE for answers to tough questions.**

You make critical decisions that can mean the difference between success and failure. You need information. You want answers. For example, what are the cost/benefit ratios between bushing replacement and repair?

### **PCORE knows.**

With years of proven experience, PCORE can answer virtually any question you have about bushings. Once we've answered your questions, we'll work with you to deliver the products and services that answer your needs.

### **How?**

PCORE answers the demands of a competitive industry. With over 40 years of bushing manufacturing experience, PCORE makes apparatus bushings from 15kV to 500kV and boasts an ongoing bushing development program. From our PRC (Paper-Resin-Capacitor) Bushings to the POC (Paper-Oil-Capacitor) Series 2 115kV-345kV Bushings, PCORE pushes the technological envelope in designing and manufacturing high-quality bushings. Our innovations include the PCORE Test Terminal, which was designed for easy testing of in-service bushings without the expensive removal of bus duct or cable.

When the question is about bushings, contact PCORE Electric.

**PCORE has answers.**
