

# Replace 14 Conventional Die-Type Connectors with **ONE Anderson VERSA-CRIMP®** Range-Taking Connector

**L**ook at the benefits:

1. Reduce connector inventory.
2. Reduce down-time/maintenance cost associated with improper die choices.
3. Reduce installation time.
4. Reduce cost by eliminating dies.
5. Reduce field errors due to incorrect die selection.
6. Reduce lineman fatigue with lightweight tool design.

*NOTE: One connector only replaces 14 if crimped with a VERSA-CRIMP® compression tool.*
