CATV INFRASTRUCTURE REBUILT WITH EASY-TO-INSTALL QUAZITE®

Cox Cable rebuilt its CATV infrastructure in the Norfolk, Hampton Roads, Newport News, and Virginia Beach areas with QUAZITE® enclosures. Cox Cable chose to use the lightweight, easy-to-install boxes because of their reputation for long-lasting, dependable service. Cox Cable had used QUAZITE® boxes in previous installations and knew that the boxes and covers could withstand the foot traffic and non-deliberate vehicle traffic potential of such heavily populated downtown areas.

Another distinct advantage of selecting QUAZITE® for the job was the local stocking distributor who had boxes, covers and hardware available. The installation project called for the use of PG1324, PG3048 and LG3660 series boxes with heavy duty covers.

TECHNICAL DATA

- Product: CATV Underground Enclosures
- Process: Closed mold casting utilizing matched surface tooling
- Materials: QUAZITE® precast polymer concrete
- Sizes: PG1324 — 13" x 24"
PG3048 — 30" x 48"
LG3660 — 36" x 60"
- For: Cox Cable
