

This package goes beyond tools

CHANCE

® We give you more transmission and distribution tool and grounding equipment choices than anybody! And, we add extra benefits and services to your tool investment that are unmatched anywhere!

We help you configure construction to be live-line maintenance friendly. That helps you save over the life of the lines. We can develop hot line tool lists, so you'll know exactly what's needed and where. And, we ensure the tools meet applicable ANSI and IEC standards.

For unique applications, we are able to develop special tools. Our experienced tool demonstrators can train crews using the latest techniques. And, we offer video tapes that give ongoing training before and after the purchase.

At Chance, we do more than sell quality, field-tested tools. We share our expertise, people and our commitment as the leader in live-line work. Call us.
