

Tools, techniques, training... count on us

CHANCE[®]

Nobody offers linemen more hotline tools than Chance. Nobody has developed more hotline techniques than Chance. And, nobody offers more free training aids than

Chance. It's a complete package. The tools. The techniques to properly use them. Experienced demonstrators, available worldwide to teach your crews. And, there's more.

Training videos used in thousands of utility seminars, schools and training centers. Yours to use free. A consulting service for T&D line design, so systems can be maintained while energized. Special tools for special applications. And, our laboratory will perform HV tests to determine what tools or methods work best for you.

Besides Chance tools, we can coordinate your requirements for Anderson & Fargo connectors, fittings, EHV hardware and Ohio Brass insulators and arresters. We'll put this all together to help make your T&D construction and maintenance go smoother. Call us.
