Volume 1 (1896 - 1936)

Titled “The Centralia Wizard,” this is the personal story of A. B. Chance and the Company he founded in 1907 in Centralia, MO. Albert Bishop Chance was born in the small frontier town of Centralia in 1873. He developed the world’s first practical earth anchor there in 1912. The invention of the anchor served as the catalyst that propelled Chance (Hubbell Power Systems) into its prominent role as a supplier of a wide variety of transmission and distribution products to the electric power industry.

This is the story of one man’s positive attitude and perseverance in the face of difficulties and challenges. It is an all-American story from the heartland of the country. A timely story that coincides with the 100th Anniversary of Chance.

The 450 plus page book may be ordered from the Centralia Historical Society, 319 East Sneed Street, Centralia, MO 65240. Cost is \$37.50 per book plus \$5.50 per shipping per book.
